EDUCATION

University Of Ibadan
Bachelor of Science in Food
Technology - 2012-2016

Federal Polytechnic, Ilaro
National Diploma in
Mechanical Engineering- 2010-
2012

SKILLS

- Web scrapping
- Natural Language Processing(NLP)
- Supervised Learning
- Unsupervised learning

PROFICIENCY

- Python
- Java
- Javascript
- SQL
- Neural Network
- Supervised and Unsupervised learning

PROJECTS

- Investigating a collection of clients that applied for a loan but were declined. Using K-means clustering to identify clusters of clients within the collection.
- Develop two loan pre-delinquency models, comprehensively compare the two models and explain which model to implement

EXPERIENCE

INTERN - PAYLATER NIGERIA DATA ARISE PROGRAM

Feb.2019- April 2019

- Database management system
- Dimensionality Reduction
- Regression
- Classification And Evaluation
- Deep Learning(CNN)

EVENTS

- Participant - AI+ Researchers seminar (Data Science Nigeria)
- Participant- Big Data for digital/financial inclusion
